**"LIKE" US**  
TO JOIN THE CONVERSATION AND KEEP UPDATED!

Thank you  
for being a loyal Buck customer.

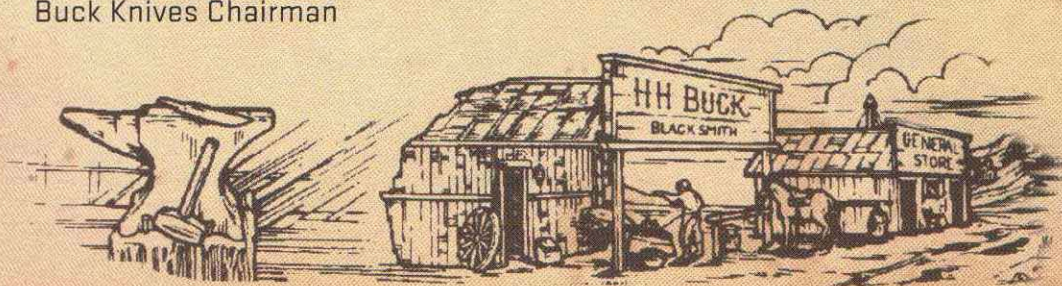

We consider all our dealers and consumers to be part of our family. A family that is now 110 years old thanks to you! Hoyt Buck, my grandfather and CJ's great-grandfather, founded this company on a simple premise: *To make a better knife.* Our longtime, best selling knives reflect that tradition. We also recognize the importance of keeping pace with changing times. As we look to the future, you can be assured that the same attention to quality, performance and craftsmanship will continue. Since our own name is on the knife, it is very personal to us to make sure you are receiving a great tool. By listening to the needs of our customers, we ensure that every product is crafted to fit their unique needs. Whether it be hunting, fishing, hiking, camping, or just everyday tasks you will find a Buck knife perfect for the job at hand.

CJ and I travel the country often and we love meeting you and hearing your knife stories. When someone pulls out a knife with the blade sharpened to almost nothing, the handle dinged from years of use and we see your face light up at the memory of the first time you used your knife, we can always tell your knife has been your friend and we are proud to have provided that for you.

We will enjoy sharing our 110th Anniversary with you and plan to continue bringing you the innovative products you want and need for years to come.

*Chuck Buck*

Buck Knives Chairman

### Haley Heath ErgoHunter Adrenaline® Series

Finally a set of knives designed for females and endorsed by one of the best female hunters out there! Haley Heath knows hunting and collaborated with Buck engineers to provide a line of knives specific to female field needs and preferences. The ErgoHunter Adrenaline Series has added safety features built each handle and blade. The knives are designed for smaller hands while still providing a comfort level that eliminates hand fatigue. See pages 8-9 for more info.

### ErgoHunter CS® (Compact Skinner) Series

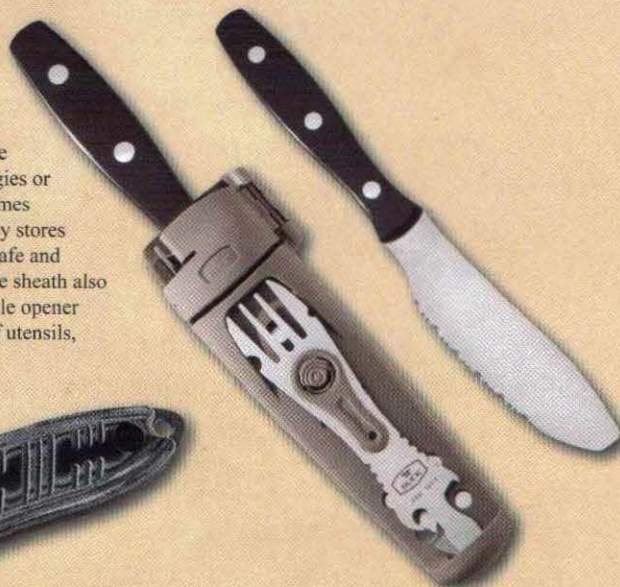

Our ErgoHunter® line is well known for being comfortable and effective. The CS Series offers an alternative to our larger skimmers for those who prefer a more compact design. Built with the same full tang, sturdy design, these knives promise maximum field performance through our patented ergonomic handles and high quality skinner blades. See page 10 for more info.

### 941 TravelMate® Kit

The perfect portable tool for preparing food while camping, picnicking, road tripping, RVing, tailgating or relaxing anywhere in the outdoors. The flexible blade allows you to easily spread peanut butter, cream cheese, jelly or any other condiment. It is multi-purpose in the fact that it is also sturdy enough for slicing bread, cheese, veggies or snack meats and can also serve as a spatula. The TravelMate® Kit comes with an antimicrobial injection molded sheath that safely and securely stores the spreader between uses. The spreader and sheath are dishwasher safe and the sheath's antimicrobial additive helps prevent bacteria growth. The sheath also features a multi-functional stainless steel fork with an integrated bottle opener and can opener for all your food prep needs. No need to pack a lot of utensils, this one does it all!

See page 38 for more info.

### 065 Buck/Hood Punk®

Designed to be an outdoor/survival/adventure knife, the Punk® can handle even the most rugged and tough conditions. Based on Ron Hood's design and built to Buck's quality standards, the Punk® helps ensure survival in extreme conditions. It is easily carried in a heavy-duty nylon sheath, and extreme enough for any hard core task. The full tang blade and secure yet comfortable Micarta® handle is built with our Shock Mitigation System (SMS) to reduce shock and wasted energy during use. The Punk® comes with a heavy duty M.O.L.L.E. compatible nylon sheath with storage pouch. See page 44 for more info.

### 680 TOPS®/Buck CSAR-T® Liaison®

Designed as a lightweight carry knife or tool for when your primary knife cannot be used, the Liaison® can be the difference in any situation. The TOPS®/Buck CSAR-T® Liaison® is a discreet lightweight carry knife that is rugged enough to get you through any situation. The skeletal design and Kydex® sheath make it easy to carry and access. The Zirblast® finish gives it a valuable non-reflective quality, while the handle has the hex hole compatible with the Hex Tool Kit that works with all the TOPS®/Buck CSAR-T® knives.

See page 40 for more info.

### 847, 845 Vantage® Force

New this year are military models in Desert Tan, Marine OD Green and A-TACS® Camo! The Vantage Force blade flipper allows a very fast and smooth one hand opening. Using an oversized liner lock and stainless steel frame provides ultimate strength and durability. When faced with a critical situation, the Vantage® Force is prepared to protect in a moments notice.

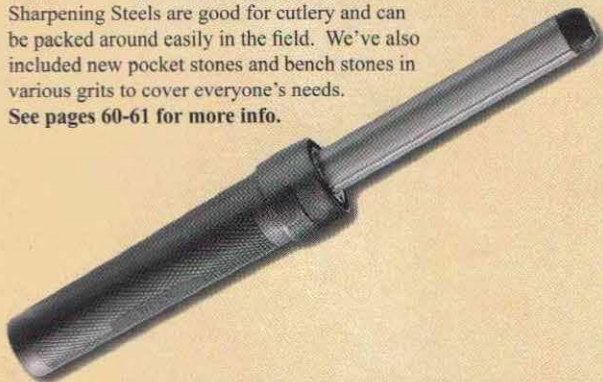

See pages 42-43 for more info.

### New EdgeTek® Sharpening Line!

Introducing a brand new line of Buck sharpeners! This line includes a variety of sharpeners with 100% diamond coated surfaces to put the edge back on any knife. Our lightweight and compact FlipStik's® are great for on the go. The longer Sharpening Steels are good for cutlery and can be packed around easily in the field. We've also included new pocket stones and bench stones in various grits to cover everyone's needs.

See pages 60-61 for more info.

### 753 Redpoint Rescue®

During a crisis, the Redpoint Rescue® has the features necessary to help save lives. It comes equipped with a Titanium coated, partially serrated blade, Buck's SafeSpin® and SUR-Lock® opening technology for safe and easy deployment and a rubberized handle for a sure grip in any type of weather. Furthermore, the 753's handle end has a built in glass breaker (for tempered glass) and a seat belt cutter. The compact size and deep carry pocket clip makes it easily accessible.

See page 45 for more info.

### 770 FlashPoint LE®

The FlashPoint® Law Enforcement utilizes Buck's SafeSpin® and SUR-Lock® technology, which locks open and closed and can easily and quickly be rotated open, even with gloves on. The light weight aluminum handle is contoured for a secure grip and includes rubber inlays for added security. The Titanium coated 420HC blade is non-reflective and heavy-duty, offered with partial serrated or standard blade. As a bonus, this knife incorporates into the handle a carabiner clip for easy attachment.

See page 45 for more info.

TOPS® is a registered trademark of G.M.I. Manufacturing Inc.

## 110 YEARS OF QUALITY CRAFTSMANSHIP

It is no accident that we've been around for 110 years. We know knives, we know your needs and we know quality. Our roots are in the outdoors and this is where they will remain. At Buck our motivation is simple: Make a product that does the job it's supposed to do, make it last so we can guarantee it for life, and try to make everything we do better each year. From the days in 1902, when a young apprentice blacksmith Hoyt Buck began experimenting with tempering metal to sharpen farming equipment to now with our industry famous Paul Bos heat treating system, Buck has been dedicated to providing the best quality USA made products in the marketplace.

With 110 years of experience behind us, it's no wonder we are a market leader in edge retention thanks to our steel selections and cryogenic heat treat process, pioneered by Blade Magazine Cutlery Hall of Fame® recipient, Paul Bos, whose heat treating system has proven to be the best in the business. Each blade is tempered to the appropriate Rockwell Hardness through our heating, freezing and reheating system. This process is the foundation and success of each knife we create. It gives you longer edge life, ease of resharpening and a blade that will not fail you. Each blade is then put through a rigorous quality performance test to ensure you are getting the level of product you have come to expect from us.

The type of steel used for our blades is very important to the function of each knife. Please see our steel chart below to determine which steel is best for intended use.

### BUCK STEEL

Supreme combination of edge retention, ductility, hardness, toughness, wear resistance, and corrosion resistance. For optimal performance, we harden to a standard Rc 59-61.

Excellent edge retention, great corrosion resistance and for heavy cutting applications. For best performance, we harden to a standard Rc 59-61.

Supreme corrosion resistance with great ductility and strength for wear resistance and durability. For best performance, we harden to a standard Rc 58-60.

Great edge retention and hardness for wear resistance and strength. For best performance, we harden to a standard Rc 58-60.

Our standard steel, with great edge retention and corrosion resistance. This industry standard is easily resharpened. For best performance, we harden to a standard Rc 58.

### FAMOUS FOREVER WARRANTY

At Buck, we guarantee our knives for life because we believe in the integrity of our products.

It was the philosophy of our founder, Hoyt Buck, who pioneered our Forever Warranty and we continue to pass it down with each generation. Hoyt recognized what Buck knives have to offer and was committed to making them last. We guarantee our knives for life because we believe in the integrity of our products. Complete warranty information is on our website at [www.buckknives.com](http://www.buckknives.com)

## A KNIFE FOR EVERYONE

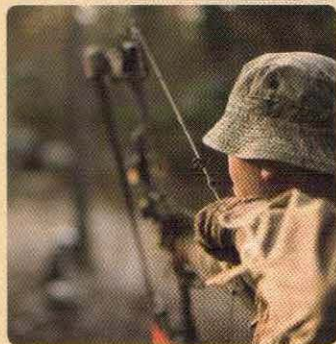

You are important to us and we strive to provide you with a knife to meet your specific needs – from serving our country to skinning an elk to opening a box, Buck has the right knife.

We divide our products into three main categories:

**OUTDOOR:** The knives in this category have the rugged durability and no-nonsense functionality that defines this way of life. Designed for unquestionable reliability under extreme use, these knives are made for the hunter, angler, hiker, camper and anyone else whose outdoor experience might depend upon them. This category covers Hunting, Fishing, Camping/Hiking and Survival/Tactical.

**EVERYDAY:** People who carry a knife everyday do so for one very important reason - because they use it everyday. The knives they carry must be as reliable as they are functional, designed to perform effortlessly in whatever lifestyle they are a part of.

**LEGACY:** For discriminating collectors, knives are as much about aesthetics as they are about functionality. From knives that are a tribute to historical American heroes to ones that represent the most significant innovations in a time-honored craft, Legacy knives are made with a craftsmanship and commitment to quality that elevate them from functional blades to exceptional works of art, and are often passed down through generations. We have created another catalog dedicated entirely to our Legacy collection. Make sure to browse this catalog, it is sure to make an impression.

## BUCK'S PRODUCT LEVELS

Assigning our knives to categories is helpful in guiding your customers to the right kind of knife for their needs. At the same time we recognize that consumers are tightening budgets, so we break them down into choices by price point. It's as simple as "good-better-best," with great value at every level.

**GOOD**

### SELECT LEVEL:

Our Select Level offers reliable products at an unsurpassed value. Quality materials and innovative Buck designs create practical knives and tools that deliver affordable excellence. Designed in the USA. Built in the USA or imported.

**BETTER**

### AVID LEVEL:

Dependability is at the heart of everything that is Buck. Our loyalists expect no-nonsense practicality, and our Avid Level knives define this characteristic. Designed for functionality and crafted from high quality materials, these knives deliver consistent reliability under rigorous use. Designed and hand crafted in the USA.

**BEST**

### PRO LEVEL:

Taking a century's worth of knife craftsmanship to an unprecedented level, our Pro Level knives are designed and crafted to be used in the most demanding situations. Premium materials and revolutionary designs are combined with the highest quality American craftsmanship. The result is a superior knife that discerning users can rely on in any situation. Designed and hand crafted in the USA.

## INTRODUCING THE

# HALEY HEATH ERGOHUNTER<sup>®</sup> ADRENALINE SERIES

Eight new knives designed to respond to high levels of excitement in the hunting experience! Haley knows hunting and all her years of experience have given her an expert perspective on what gear a woman needs in the field. The ErgoHunter Adrenaline<sup>®</sup> Series offers top performance in the most demanding and extreme hunting situations.

When collaborating with Haley regarding a line of female specific hunting knives, she revealed her favorite hunting knives are Buck's ErgoHunters<sup>®</sup>, in which she'd like to see that line redesigned for the female touch. With a modified handle designed to fit in smaller hands, re-curved design for a safer grip and a finger guard at the bottom of the blade, Buck has provided just the knife Haley trusts to serve her skinning needs. For even more control, these knives have a machined checkering on the colorful handles for a secure grip. With a variety of blade steels [S30V, 12C27Mod Sandvik<sup>®</sup> and 420HC] there is a choice for every woman.

In the world of hunting, Haley Heath has been labeled as a top hunter in the industry. As a 5th generation hunter, Haley is now the host of the popular program *Family Traditions with Haley Heath*<sup>®</sup> on the Sportsman Channel. She has been the Outdoor Channel's first woman to receive the "Viewer Favorite" award. Haley epitomizes today's generation of hunters and how a growing number of women are participating in this tradition.

## OUTDOOR HUNTING

Sized down for those who prefer a smaller skinner, the ErgoHunter CS® (Compact Skinner) still offers a variety of blade steels (S30V, 12C27Mod Sandvik® and 420HC) so there is a choice for every level of hunters. The durable skinning blade offers the utmost control during use. For even more finger control, these knives have an extra large choil for gripping. A choice of Dymondwood® or black Alcryn® rubber handles offer comfort while utilizing an all-weather grip anti-slip texture for maximum performance.

## BUILT FOR COMFORT AND CONTROL

This top view of the ErgoHunter® shows you how the handle is built for comfort and control, using the palm swell concept. The design is based on the primary gripping positions during use, to reduce hand fatigue and increase hunting performance. If you look up the dictionary definition of Ergonomic, it says: Design factors intended to maximize productivity by minimizing operator fatigue and discomfort. Buck has translated these mere words into a reality your customers are sure to appreciate!

Chris Hustad is the owner of the Nodak Network, an Internet network which encompasses the largest waterfowling traffic in North America including: NodakOutdoors.com, DuckHuntingChat.com, and GooseHuntingChat.com. He's an avid waterfowler, hunting migrating waterfowl from August through May across the country.

*The ErgoHunter® Waterfowler™ knife by Buck Knives is the only knife I've ever used that effortlessly handles all the chores related to cleaning birds. From filleting the tenderloins, down to cutting backbones and wings, the process is a snap. The size and shape of this knife also allow me to clean the birds without creating any waste. With the Forever Warranty and quality of Buck Knives, it's the best knife for a waterfowler to carry.*

*-Chris Hustad, Nodak Network Online Marketing*

## FUNCTIONAL BLADE

Sized to harvest every last ounce of meat, the WaterFowler's™ unique blade design and hollow grind allows for more precise cutting, such as filleting tenderloins. Meanwhile, the stout shortness of the blade provides strength for larger tasks associated with dressing most any bird.

## PAKLITE® SERIES

Pack light, cut easy as we like to say at Buck. These knives have quickly risen to the top as best sellers. We know when out in the woods, weight matters. The PakLites® are lean and mean, surgically efficient for any task. Constructed of solid 420HC stainless steel, they are easy to clean and razor sharp. The black models are coated with Buck's Black Traction Coating to provide a sure grip. Sold individually or in a set with a convenient carry-all sheath, the PakLite's® will become an essential tool for any hunting trip.

## **B COMBO PROMOTIONS**

Buck Hunting Combo Packs are an efficient way to offer hunters flexibility in the field, since hunters usually need more than one blade to finish the job. Now they can have choices of skinners, guthooks and capers to meet all their needs. An added benefit is these combo packs come with sheaths designed to carry both knives, making them very convenient to carry.

### **195/499 Mini Alpha Hunter® Combo With PakLite® Guthook**

#### **195/499**

A classic 195 skinner with the innovative 499 PakLite® Guthook.

Heavy-duty nylon combo sheath included!

**CARRY WEIGHT:** 6.2 oz. (175.8 g)

**BOX: MODEL # 0195GYSVP-B, CATALOG # 3308**

*Patent* 5,359,778

### **393/135 Omni Hunter® Combo With PakLite® Caper**

#### **393/135**

A versatile 393 skinner with guthook paired with a 135 PakLite® caping knife.

Heavy-duty nylon combo sheath included!

**CARRY WEIGHT:** 11.5 oz. (326 g)

**BOX: MODEL # 0393BKGP-B, CATALOG # 3314**

**CLAM: MODEL # 0393BKGP-C, CATALOG # 3315**

*Patent* 5,359,778

### **390/499 Omni Hunter® Combo With PakLite® Guthook**

#### **390/499**

An efficient 390 skinner with the innovative 499 PakLite® Guthook.

Heavy-duty nylon combo sheath included!

**CARRY WEIGHT:** 7.4 oz. (209.8 g)

**BOX: MODEL # 0390BKSP-B, CATALOG # 3312**

**CLAM: MODEL # 0390BKSP-C, CATALOG # 3313**

*Patent* 5,359,778

## THE BOONE AND CROCKETT CLUB® SERIES

Over a concern for all wildlife, game and non-game species, The Boone and Crockett Club® has focused its efforts on the guardianship of the habitats that supports wildlife and on the user-pay model of conservation that secures a future for our wildlife. Early Club members including its founder, Theodore Roosevelt, realized it would take purpose to keep wildlife with us and that wild places and wild things would eventually succumb to the demands of man without such a purpose.

Today, as it has for the past 125 years, The Boone and Crockett Club® continues to apply its resources and influence in the areas of conservation policy, wildlife science and education, along with advocating for wildlife and their habitats.

Buck Knives is pleased to partner again with The Boone and Crockett Club® to spread this message of purpose, and to help fund its advocacy programs through the sale of the knives that bear the Club's name. Many new collector models have been introduced this year for this purpose.

### 120 Boone and Crockett® General

#### 120

**BLADE** 7 3/8" (18.7 cm) 420HC, with "Hunt Fair Chase" etching

**CLAM:** MODEL # 04820RSBC-C, CATALOG # 3418

Made in the USA of USA and imported parts.

## **B** CLASSIC HUNTING SERIES

Our most famous series of knives! Introduced decades ago, these are still best sellers. With the introduction of the 110 in 1964, Buck Knives quickly became the most well known knife brand in the world. This group offers functionality that was way ahead of it's time, yet still performs without complaint today. Some designs are meant to last, and this series has become an American icon in hunting. Any hunter out there knows the Buck 110 and 119, and most likely has owned one for many years.

### **110 Folding Hunter®**

#### **110**

**BLADE** 3 3/4" (9.5 cm) clip, 420HC steel

## OUTDOOR FISHING

### SILVER CREEK™ SERIES

Since introducing the original three Silver Creek™ knives, this set has quickly become a favorite among fisherman. This series has grown to include our popular folding fillet and a utility knife for general use. What makes our fishing knives stand out is the very durable, flexible and corrosion resistant blades. Built for fresh or salt water, these blades will last. The rubberized handle and stainless steel guard ensure safe use, even in extreme wet conditions.

OUTDOOR

# CAMPING & HIKING

Enjoying and appreciating the outdoors is an age old pastime. All serious outdoorsmen know that a good blade is an essential tool for their activities. Buck knows that safety, weight and multi-function matters. We cover all needs for camping, backpacking, climbing, rafting and any other outdoor activity. Most of these knives are lightweight and extremely safe with locking blades and rubberized handles. They also provide other convenience factors such as carabiner attachments, multiple carry options or integrated bottle openers.

## SUR-LOCK® & SAFESPIN® OPENING

Buck's SUR-LOCK® technology ensures safety by locking the blade open and closed. Our 750, 753 and 770 models utilize this feature with a button that slides back toward the butt of the handle to lock and unlock the blade. Our SUR-LOCK® combined with SafeSpin® opening allows you to open the blade with one finger by rolling the blade rotator towards the back of the knife. No need to have any fingers near the blade and it's easy to use, even in gloves!

# B ECOLITE®

As outdoor lovers ourselves, we understand the importance of integrating eco-friendly materials into our products. PaperStone® is extremely durable, very lightweight, rugged enough to withstand extreme temperatures and made from 100% post-consumer recycled products. It's the greenest material you can find, often used for kitchen counter tops and other surfaces. Cutting the weight of our knives down significantly, PaperStone® gives outdoor enthusiasts a light knife they feel good carrying because it is as environmentally friendly as it is effective.

OUTDOOR

## SURVIVAL &amp; TACTICAL

Continuing our dedication to bringing those who serve and protect tools they can count on, we continue to provide you with more TOPS®/BUCK knives. Uniting two Idaho knife manufacturers brings over 100 years of development and manufacturing knowledge along with over 100 years of combined "real field time" experience into the creation of each TOPS®/BUCK knife. Most who have used a TOPS®/BUCK knife have been seriously impressed with these heavy duty designs. In 2010 our 095 TOPS®/BUCK CSAR-T® was rewarded for our innovative ingenuity when *Field and Stream* Magazine named this knife the "Best of the Best" in 2010 under the Survival category.

## 680 TOPS®/Buck CSAR-T® Liaison®

## B VANTAGE® FORCE SERIES

Introducing many new military options! When relying on a tool in an extreme situation, the Vantage Force's will back you up. Our new extensions are offered in Marine OD Green, Desert Tan, and A-TACS® Camo for those military operatives in need of a discreet knife. The stonewashed blades provide a non-reflective finish and, as always, our pocket clip provide the tip-up, discreet carry option. Any Vantage Force model is suitable for tactical, police, EMT or general everyday use for those who want a hard core knife.

## IN MEMORY OF RON HOOD, 1944-2011

*When I think of my late husband, Ron Hood and of Buck Knives, I think: experience, high-quality, class and passion. Buck Knives has allowed Ron to share with you his 40+ years of wilderness teaching experience through his designs. Once you get a Ron Hood design in your hand you can literally feel the years of knowledge that were put into it. What you have here are blades that can do the same job as others, but with much less weight. The Buck/Hood knives give you everything you would ever need to survive... with class and style. Ron Hood's experience and designs married with Buck Knives' high quality standards are a match made in Heaven. Ron will be missed, but his legacy will continue for years to come thanks to Buck Knives.*

## B VANTAGE® SERIES

A huge success for Buck, the Vantage® is a great knife for most daily tasks. The blade flipper allows you to open the knife so quickly, you will think this knife is an assisted opener. Each Vantage® is built with dual steel liners for added strength. With a variety of handle materials and blade steels, this knife is the envy of those who do not own it.

**BOX:** MODEL # 0336BKS-B, CATALOG # 3261

Patent Pending

Shift Mechanism® patent pending

Patent All Buck Assisted Opening knives are under:  
 US 7,107,686; 7,313,866 and patent pending.  
 Licensed under one or more of the following  
 patents: 5,802,722; 6,145,202; 6,338,431;  
 6,397,476

## SHIFT MECHANISM®

Our latest breakthrough is the patent-pending Shift Mechanism®. This feature, incorporated into the new Paradigm® series, serves as an advanced locking mechanism through a rotating bolster that keeps the blade from accidentally opening or closing. With a slight glide of the bolster and a flick of the finger, this knife is easily opened. Combined with Buck's patented ASAP opening technology, the Shift Mechanism® creates a knife that's ready the instant it's needed.

**288 QuickFire®**
**288**

**BLADE** 2 3/4" (7.0 cm), drop point, 420HC steel  
**THICKNESS** 0.120"  
**LENGTH** 4 1/4" (10.8 cm) closed  
**WEIGHT** 3.6 oz. (102.1 g)

**CLAM:** MODEL # 0292PNS-C, CATALOG # 3211

*Buck's ASAP assisted opening knives are functionally different than automatic/switchblade knives. Switchblade knives use a button/lever in the handle to release the blade and the blade cannot be moved at all without entirely opening the knife. As with many things, knife laws change and vary from location to location. It is the user's responsibility to comply with all regulations. For more information and general definitions please visit [www.ATK1.org](http://www.ATK1.org)*

## BANTAM® SERIES

Our Bantams, now made in the USA, mean business with the Buck quality blades and tough handles. Offered in four sizes, each one is lightweight, razor sharp and sturdy with a lockback design.

"My grandfather's  
craftsmanship...  
a legacy four  
generations strong"

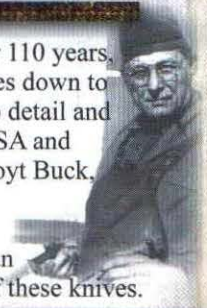

—Chuck Buck,  
Chairman

## CHAIRMAN COMFORTCRAFT® SERIES

As a testament as to why Buck knives has been the number one knife makers for 110 years, these knives are as American as Buck. For years parents have been passing knives down to their children. These ComfortCraft® knives were designed with extra attention to detail and hand finished so they fit comfortably in your pocket and in use. Crafted in the USA and modeled after the high standards and hand craftsmanship set forth by founder Hoyt Buck, the knives in the Chairman Series are the epitome of Buck.

With design counsel from our Chairman of the Board, Chuck Buck, the Chairman Series holds his signature on each knife handle to endorse the superior quality of these knives.

*Whenever there is a special event,*

a Buck knife can help mark the occasion memorably. Whether it's a wedding, a birthday, an anniversary, a rite of passage, a service award or an auction item for fund raising, you name it - Buck can make it a very special, appreciated and treasured gift for years to come.

**Start** with any knife that's appropriate, and then let us customize it in any way you like. Maybe it's a message etched on the blade. Maybe the handle is specialized. Our artisans can do so many things, you'll find they can create the perfect answer to your search for that commemorative treasure.

**Birthday or Anniversary**

**Wedding**

**Service Awards**

**Rite of Passage**

**Fund Raising**

*The possibilities are endless!*

Minimums are required for some of these projects. Please contact your Sales Representative for details and to place orders.

## BUCK KNIVES PRO STAFF

Buck has carefully assembled a Pro Staff consisting of several well respected outdoorsmen and women throughout the United States. Whether it is in hunting, fishing or survival, these men and women use Buck knives on their excursions as a testament to the quality of Buck's product. They rely on their Buck knives for their livelihood and would not endorse Buck product if they couldn't depend on these knives. Valuable feedback from these Pro Staffers enables Buck to continue to bring the most innovative products to market.

### CHAD & MARSHA SCHEARER

OUTFITTERS, GUIDES, TELEVISION HOSTS & OUTDOOR WRITERS

#### About Chad Schearer:

- World Champion Elk Caller and 2 time Eastern US Elk Calling Champion
- Hosts Shoot Straight TV show, 2008-Current
- Television Show on Sportsman Channel, Fox Sports South and CBS Montana
- Licensed Montana Professional Outfitter & Guide
- Hosts International Sportsmen's Expositions Best of the West Elk Calling Competitions (2002-present)
- Freelance Writer – his articles and photographs have been featured in several magazines including *Outdoor Life*, *American Hunter*, *American Rifleman*, *Field & Stream*
- Former Editor of Blackpowder Guns and Hunting Magazine
- Director of Media Relations for CVA Muzzleloaders and BPI Products
- Sponsored by many of the hunting industries leading manufacturers
- Has conducted over 700 hunting and fishing seminars across the United States and has hunted and fished extensively around the world.

#### Testimonial:

*I received my first Buck Knife as a Christmas present when I was 11 years old. It was a model 102 Woodsman. I was so excited when I opened the package. Over the years I have had the chance to guide and hunt all over the world and have used a variety of gear, but Buck has ALWAYS been my knife of choice. I know I can rely on my Buck to stay sharp whether I am dressing, skinning or caping an animal. I have passed this tradition down to my boys, and they love getting Buck knives.*

—Chad Schearer

#### About Marsha Schearer:

- Co-Host Shoot Straight with Chad Schearer
- Licensed Montana Professional Guide
- Outdoor Writer & Photographer
- National Seminar Speaker

#### Testimonial:

*Growing up in Tennessee I spent a lot of time fishing. When I started hunting my first knife was a Buck. As I started guiding in Montana I really learned the importance of carrying a sharp knife. Buck helps me keep my edge in the outdoors. When I first saw Buck's Folding ErgoHunter I was in love. The handle fits a woman's hand better than any other knife I have ever used. I don't think you can ever have enough Buck knives.*

—Marsha Schearer

## HALEY & G.O. HEATH

### HOSTS, FAMILY TRADITIONS WITH HALEY HEATH®

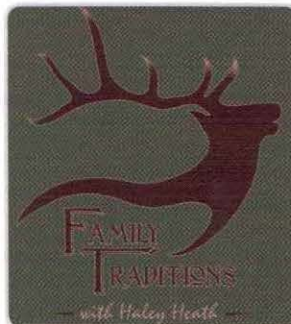

Born to families of hunters, G.O. and Haley Heath's love with hunting started at early ages. Today, they are the proud parents of two young children and travel the globe to hunt all types of game. Haley was the first woman to ever receive "Viewer Favorite Personality" at the 2008 Sportsman Awards. In 2006, she competed for ESPN's Ultimate Outdoorsman Search, coming in 2nd only due to her pregnancy. G.O. and Haley have always tried to share their knowledge and passion for outdoors and hunting with others. In fact this was the reason behind their TV show, *Family Traditions with Haley Heath®*, available exclusively on The Sportsman Channel, which premiered in 2008. With Haley's fun, yet hard core style of hunting and G.O.'s determined and hilarious personality the show has quickly risen to the top.

In 2009, Haley was appointed as the Ambassador for The Sportsman Channel's Hunt.Fish.Feed.SM, the channel's initiative to feed needy families during economic crisis. As an Ambassador, Haley works closely with the program to serve as a spokesperson and provide guidance. Recognized for their passion and conservation, in magazines and newspapers like: *AJC*, *Wall Street Journal* and *USA Today*, G.O. and Haley plan to turn a sport which once was viewed as a privilege for the elite into an activity which every member of the family can enjoy.

#### Testimonial:

*We carry Buck Knives around the world with us, in all environments and climates. We trust our Buck Knives to get the job done, whether it is used for cleaning and caping an animal, cutting down trees, or in the bad cases of self protection, we know it will never let us down. Carrying a Buck on our hip when heading in the woods has become a family tradition that will be passed down for generations to come in our family.*

—Haley & G.O. Heath

## GREG HEISTER

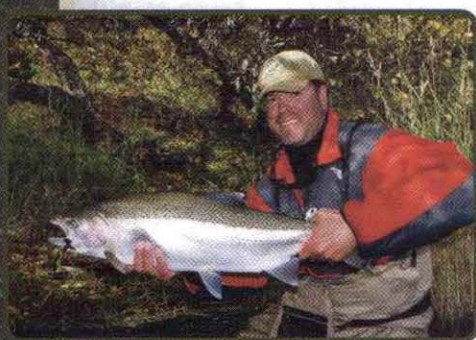

### HOST AND PRODUCER, SEASONS ON THE FLY

Greg Heister is the host and producer of "Seasons On The Fly". An Emmy Award winning program that will soon begin its 3rd season on Versus. This season will include many exciting catches in great locations! Heister is also a play-by-play announcer calling college football and basketball games for FSN, ESPN and CBS College Sports. A fly-fisherman since his youth, he is combining his better than 20 year television career with his love of fly-fishing to produce this award winning program. Go to [seasonsonthefly.com](http://seasonsonthefly.com) to learn more.

#### Testimonial:

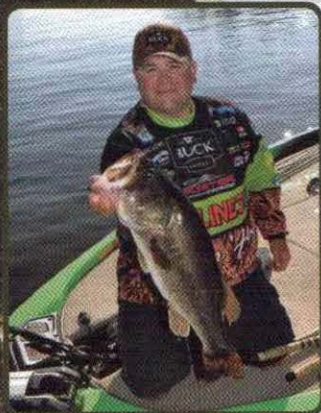

*"I come from a family who has made their living in the knife business, so I believe I know a good knife. Buck knives are unsurpassed in quality and toughness as they have been for over a century. You'll NEVER find me on the river without the X-tract Multi-tool hooked to my hip. With the pliers and the knife, this tool is a must for every angler. I also love the Stockman series. Small enough for your pocket but sharp enough to cut shoe leather. In fact, its not often you'll find me without a Buck Knife! They are a must for an outdoorsman.*

Greg Heister - Host and Producer of  
"Seasons On The Fly"

[www.seasonsonthefly.com](http://www.seasonsonthefly.com)

## BILL LOWEN

### PRO ANGLER

Professional bass fisherman Bill Lowen currently resides in Indiana with his wife Jennifer and their daughter Nevaeh. Before fishing full time, Bill was a flooring contractor who enjoyed fishing, duck hunting and hunting white tail deer. He has been fishing full time for 7 years now, and has enjoyed notable success. Buck Knives is proud to sponsor Bill as his success grows in the world of professional fishing.

**Final 2011 Bassmaster Ranking - 34th**

#### Career Highlights:

Career Tournament Winnings: \$553,618

- 2009 Bassmaster Elite Series 60th in point standings
- 2008 Bassmaster Elite Series 11th in point standings
- 2007 Bassmaster Elite Series 50th in point standings

- 2006 Bassmaster Elite Series 26th in point standings
- 4 career top-5 BASS finishes, 6 career top-10 finishes
- 34 top-50 BASS finishes
- 2007, 2009, 2011 & 2012 Bassmaster Classic qualifier

**Hobbies:** Hunting waterfowl, deer, turkey & dove

#### Testimonial:

*With great products and strong family traditions, Buck Knives is the one that keeps me in the woods and on the water. To me, Buck is more than just a knife, it's a way of life.*

Bill Lowen - Pro Angler  
[www.BillLowen.com](http://www.BillLowen.com)

## MARK DAVIS

### HOST, BIG WATER ADVENTURES

Mark Davis is a 43-year-old South Carolina boy with a career in fishing and a passion for the woods. He has 20 years experience in the fishing industry from retail, wholesale and manufacturing levels, and has been a 100 Ton Master captain for over a decade. He currently hosts Penn's Big Water Adventures and enjoys his time out on the set, which is whatever ocean he happens to be in at the time. He's into his 5th season of this show and has had much success with it, along with winning the following awards:

- 2008 Golden Moose Award Winner for Best Saltwater Fishing Show on The Outdoor Channel
- 2008 Winner of two silver Telly Awards (Travel and Tourism and Nature and Wildlife)
- 2009 Golden Moose Nominee for Best Fishing Show on The Outdoor Channel
- 2010 Golden Moose Award Winner for Best Fishing Show on The Outdoor Channel
- 2010 Silver Telly Award Winner (Sports)

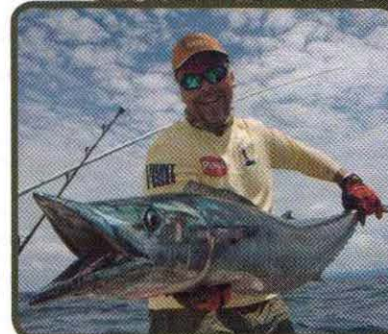

#### Testimonial:

*I've been a BUCK man since my Grandfather gave me my very first folding pocket knife when I was probably way too young to have it. The 110 Folding Hunter followed me all the way through college. Though the knife was eventually lost, the memories of my adventures with my BUCK will remain with me forever. I skinned my first rabbit, squirrel, and deer (in that order)...with it and have always unconsciously reached into my pocket whenever I or anyone else needed a blade. When my show Big Water Adventures afforded me the opportunity to connect with Buck Knives, I was not only thrilled to be involved personally with BUCK, but also to see that BUCK has crossed into MY world of fishing for a living. The Silver Creek Knife Series and X-tract line of multi tools incorporate BUCK's legendary utility, function, quality, and lifetime commitment to service that made BUCK the company it is today. When I'm not fishing and filming using BUCK's ever expanding line of fishing products, my closest friends know that hunting is my passion. It's where you'll find me on MY time, and you'll always see BUCK on my hip."*

Knife laws and regulations can vary significantly from location to location. As such, certain styles, sizes and blades may not be permitted in certain locations and areas. Buck Knives produces many different types of knives for a wide variety of legitimate everyday uses. However, due to the complex and ever changing nature of knife laws and regulations, it is not possible for Buck Knives to be aware of specific prohibitions in areas where its knives may be purchased, carried or used. It is the responsibility of the buyer/user to investigate, understand and comply with any and all laws and regulations that may apply to his or her area. The buyer/user is solely responsible for any claims arising from a violation of these laws or regulations or any unintended use or misuse of the product.

## 1941

Hoyt, a pastor in Mountain Home, Idaho, began making knives in the basement of his church in support of America's war effort after Pearl Harbor.

## 1950's

After Hoyt's death in 1949, Al kept the company going, and added to its reputation as makers of fine quality knives.

## 1902

Hoyt Buck, a young apprentice blacksmith, made the first Buck knife in Leavenworth, Kansas, after he had found a way to temper the steel in old worn-out files to make good knife blades that would hold an edge.

## 1945

Hoyt moved to San Diego to live with his son Al, and set up a small knife factory in the backyard, known as H.H. Buck & Son; Al later agreed to join his father in a knife making company, then known as the Buck Knife Co., with much of their business done by mail order.

## 1964

The most important turning point in Buck history came with the introduction of their 110 Folding Hunter, a knife that truly revolutionized the industry and established Buck as the innovative leader in the field. It quickly became a best seller, and is still Buck's No. 1 knife.

## 1961

Two major steps forward: the firm was incorporated as Buck Knives, Inc., complete with a new 3,200 sq. ft. plant; and they began to use blade forgings from a firm in Los Angeles instead of making all of their blades from files, as they had since 1902.

## 1969

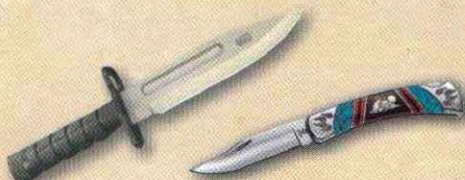

The legendary Kalinga was introduced. It became Al Buck's favorite knife, so much so, he named his boat after it.

## 1980

Moved into their new 200,000 sq. ft. plant in another El Cajon site, and Buck's growth was rapid from that point, with many new products being developed.

## 1985

The BuckMaster, a big and rugged fixed-blade field knife hit the market. With the Rambo craze, it became an instant best-seller.

## 1997

Buck won "Knife of the Year" again with the BuckTool

## 1987

Buck introduced the famous M9 Bayonet, designed specifically for the Army, but also for general field use. Also, they established their joint venture with David Yellowhorse and produced the first in a long series of masterfully designed knives with a Navajo story behind each one.

## 1994

Buck won "Knife of the Year" with the first CrossLocks

## 2002

Year-long celebration of 100th anniversary; Alpha Hunter Series introduced.

## 2009

Buck announced their American Commitment, as they work to minimize any outsourcing of knife manufacturing. Great new products introduced, including the ErgoHunter Series, the Vantages and the Paradigm.

## 2011

Major introductions included the PakLite Field Master, the new Lux framelock series, and the collaborative survival knife with the late Ron Hood, the Buck/Hood Hoodlum.

## 2005

Manufacturing plant moved to Post Falls, ID

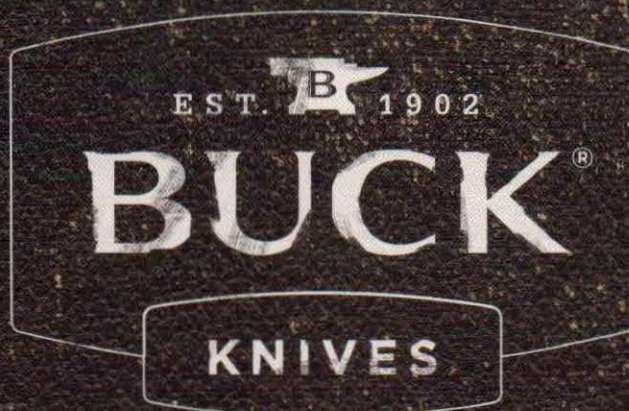

## 2010

New collaboration with TOPS Knives 095 TOPS®/ Buck CSAR-T tactical knife, which won "Best of the Best" by *Field and Stream* Magazine
